

Acknowledgment of Reviewers

The Editorial Committee of PEDOSPHERE relies on the wisdom and advice of many experts in deciding which topics to pursue, which manuscripts to publish, and what modifications to make to ensure scientific accuracy and suitability for readers of the journal. The Editors and the editorial staff would like to acknowledge the invaluable assistance of the following individuals who are invited as referees for manuscripts that have been reviewed between January 1, 2005 and December 31, 2007. These referees provide the Editors with timely, thoughtful, and detailed reviews that are enormously helpful to authors, encourage revision, improve manuscripts, and further quality of the research published in the journal, and many referees complete several reviews every year. Thank you for your dedication to PEDOSPHERE. We apologize if we have inadvertently left a reviewer's name off this list.
