

Acknowledgement to Reviewers

The Editorial Committee of PEDOSPHERE relies on the wisdom, experience and advice of many experts in deciding which topics to pursue, which manuscripts to publish, and what modifications to make to ensure scientific accuracy and suitability for readers of the journal. The Editors and the authors would like to acknowledge the critical evaluation, constructive comments, invaluable assistance and selfless dedication of the following individuals who accepted our invitation to review manuscripts between January 1, 2008 and December 31, 2009. These referees provide the Editors with timely, thoughtful and detailed reviews that are also enormously helpful to authors, encourage revision, improve manuscripts, and enhance level of the research published in the journal, and many referees complete several reviews each year. We apologize if we have inadvertently left a reviewer's name off this list.
